

Canadían Dental Assístants' Association & Certífied Dental Assístants of British Columbia Dental Assistant Recognition Week (DARW) Event Vancouver Convention Center March 7th, 2019

March 7th, 2019 2:00 PM-4:00PM Event Registration Form

Please submit registration form to: info@cdaa.ca Registration Deadline: February 15, 2019

To celebrate **Dental Assistant Recognition Week 2019** the CDAA will be holding a Special Event at the **Vancouver Convention Centre, East Wing, room 8/12 on March 7, 2019**. This event will be from 2 p.m. to 4 p.m. during which dental assistants across Canada will be invited to attend at <u>no cost</u>. During the event, <u>Dr. Nita Mazurat, Dentist, Educator and</u> <u>Patient Safety Advocate</u>, will speak to our attendees on Infection Standards Development, both provincial infection prevention and control guidelines/standards for the oral healthcare team and Canadian Standards Association (CSA) standards. In addition, the CDAA Executive team will present on the initiatives the CDAA is pursuing and what objectives we will be working towards over the coming year. Our goal is to have 200 attendees at this inaugural event.

In order to attend the DARW event, you must complete the registration below **Note: Limited space of 220 guests**

Presentation synopsis

Dr. Nita Mazurat will examine what resources offices need to help with keeping our patients and ourselves safe. We'll take a 'walk' through the OSAP website to show what is available for resources and then have a chat about what resources Canadian dental assistants need and how they would like to get this information following Dr, Mazurat's presentation. As this presentation is during **Dental Assistant's Recognition Week**,

Dr. Mazurat looks forward to celebrating The Dental Assistant as a vital part of what makes the provision of dental care safe for patients and the entire dental team and future collaboration with the CDABC as we celebrate the important contribution dental assistants make to the oral health of Canadians. Dr. Nita Mazurat is newly retired from the University

of Manitoba, College of Dentistry where she was the Director of the International Students, clinician in charge of Screening and she was the Director for Regulatory Compliance which included all aspects of Patient Safety infection including infection prevention and control. Dr. Mazurat is an active member of OSAP, the Organization for Safety, Asepsis, and Prevention, the only infection control organization for oral healthcare needs in North America. She is proudly a member of the Technical Committee for Sterilization with the Canadian Standards Association, the committee that has published the Standards for best practices in sterilization in Canadian healthcare facilities, Z314-18. She is a member of CAMDR, the Canadian Association for Medical Device Reprocessing.

DARW EVENT LOCATION Vancouver Convention Center, East Building, Room 8/15 1055 Canada PI, Vancouver, British Columbia V6C 0C3
